

Measurement, control and indication

Rotational speed = RHEINTACHO

Our applications

Stationary industrial applications

Railway vehicles

Mining applications

Marine applications

Chemical industry

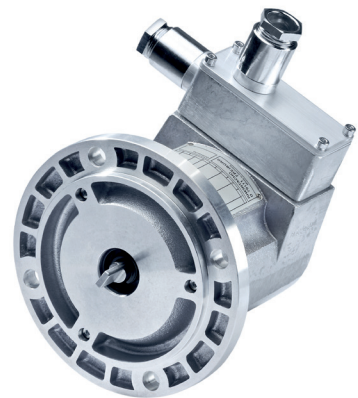

Our products

Mechanical and electrical systems can be used as an alternative to electronics for a wide range of applications. They use proven technology and widely available components to provide robust and reliable solutions.

RHEINTACHO has been making mechanical and analog indicators as well as tacho generators for many years and offers support to provide the best solutions, and even reverse engineering systems to replace obsolete instruments where the original manufacturer has discontinued production or no longer is in business

- ◆ Reverse engineering
- ◆ Spares and repairs
- ◆ Large engines / motors
- ◆ Construction machines
- ◆ Service / Start-up
- ◆ Preventive maintenance
- ◆ Mobile hydraulics
- ◆ Mobile material handling
- ◆ Marine, rail and industrial applications
- ◆ Various ATEX certified RT products

About us

RHEINTACHO UK Ltd., a privately owned, independent company, offers numerous high-performance devices and instruments in connection with measuring, controlling and monitoring rotational speed and axial movement.

RHEINTACHO Messtechnik GmbH is a German company with longstanding tradition and has been engaged since 1901 in the field of rotational speed, a crucial control quantity for mechanical processes.

Just over 100 employees are employed at the company's headquarters in Freiburg.

In-house product development, production and assembly departments guarantee quick and innovative solutions to customers' individual requirements.

The production range incorporates a wide range of solutions of a high technical quality, principally in the field of rotational speed: sensors, handheld measuring devices, rotary encoders and switching devices.

RHEINTACHO UK is specialized in the production of non-electronic measurement and indication instruments as well as tacho generators, and acts as a sales and service center for the UK and Ireland.

A further specialty of RHEINTACHO UK is its Spares & Repairs Service (SRS). We repair and service any instrument of any company in connection with rotational speed, even if a company no longer exists. We also reengineer solutions for refurbishing operations, enabling existing equipment to be used for a longer period.

RHEINTACHO - your innovative partner for diverse applications and customer-oriented solutions.
